KUNAL SINGH SISODIYA

IT Support Specialist | Help Desk Technician | System & Network Administration

+91 7389164258 · Kunalsinghsisodiya9378@gmail.com · Pithampur, MP, India · github.com/kunalsinghsisodiya

PROFESSIONAL SUMMARY

IT graduate with hands-on experience in software development, hardware troubleshooting, system configuration, and technical user support. Certified in Azure (AZ-900), AWS Cloud Foundations, Python/Linux (Red Hat), and Ethical Hacking (Cisco). Proven ability to reduce system latency, resolve technical issues end-to-end, and communicate clearly with non-technical users. Available immediately for IT Support / Help Desk roles.

CORE IT SKILLS

Help Desk & Support	Ticket Handling, Hardware & Software Support, User Assistance, SLA Tracking
OS & Systems	Windows & Android OS Administration, System Configuration, Basic Networking, Troubleshooting, Issue Diagnosis
Cloud Platforms	Microsoft Azure (AZ-900), AWS Cloud Foundations, Firebase
Programming	Python, Dart/Flutter, Flask, REST APIs, HTML
Dev & AI Tools	Git, GitHub, VS Code, Android Studio, Postman, Socket.IO, n8n, Claude, Codex
Documentation	Technical Documentation, User Guides, Incident Reports
Office & Productivity	Microsoft Office (Word, Excel, PowerPoint

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- AWS Academy Graduate: Cloud Foundations
- Red Hat: Python Programming & System Administration II
- Cisco: Modern AI & Ethical Hacking Certification
- SAP MM: Wincom Technologies Training · SAGE Winter School: ML with IoT & Data Science

KEY ACHIEVEMENTS

- Reduced processing latency 40% via on-device AI optimization — direct transferable skill for system performance tuning.
- Achieved 85%+ accuracy in AI decision-analysis app — demonstrates rigorous QA and testing discipline.
- Supported 200+ users via deployed NLP chatbot at 92% satisfaction — proves high-volume user support capability.
- Cut chatbot response time to <150ms using Socket.IO — fast, reliable real-time support tooling mindset.
- Lifted user session retention 30% through responsive UI redesign — systematic UX problem-solving at root cause.

PROJECT EXPERIENCE

Flutter/AI Developer | *DecisionSense — Self-Directed Project* https://github.com/HcxUi/decision_sense

- Built AI-driven Flutter mobile app for cognitive-bias analysis with 85%+ accuracy; managed full dev lifecycle from requirements to deployment.
- On-device ML slashed processing latency 40% with 100% data privacy (zero cloud transfer) — endpoint-security mindset baked in.
- Applied Dart state management best practices; lifted user session retention 30%.

Python/AI Developer | *AI Mental Health Chatbot — Self-Directed Project* https://github.com/HcxUi/Mental-Health-Assistant

- Built real-time conversational AI using Python & Flask; successfully handled 200+ concurrent user interactions.
- Socket.IO bidirectional streaming drove response latency below 150ms — production-grade, seamless support experience.
- Integrated NLP models for personalized stress-management responses; 92% satisfaction in post-use surveys.

EDUCATION

B.Tech — Information Technology, SAGE University, Indore CGPA: 7.29 / 10.00

LEADERSHIP

Class Representative | *SAGE University — Liaison for 60+ students on scheduling, assignments & exam logistics; organized study sessions boosting attendance.*
