

KUNAL SINGH SISODIYA

Entry-Level Software Development & IT Support Professional

+91 7389164258 | Kunalsinghsisodiya9378@gmail.com | Pithampur, MP, India

Portfolio: hcxui.github.io/Portfolio | GitHub: github.com/kunalsinghsisodiya

SUMMARY

Information Technology graduate seeking an Entry-Level role in Software Development or IT Support. Builds AI-driven mobile and web applications using Flutter, Python, and Firebase, with hands-on grounding in troubleshooting, system configuration, and technical support developed through project work and coursework.

CORE COMPETENCIES

Software Development, IT Support, Flutter, Python, Firebase, REST APIs, Machine Learning, Troubleshooting, System Configuration, Technical Support, Git/GitHub, SQL

KEY ACHIEVEMENTS

Developed AI Application — Achieved 85%+ accuracy in an AI-driven decision analysis application.

Optimized Chatbot Latency — Reduced chatbot response latency to under 150ms, enabling real-time interaction.

Enhanced User Engagement — Improved user session retention by 30% through responsive Flutter UI design.

Managed High User Volume — Successfully processed 200+ user interactions in a mental health chatbot.

PROJECT EXPERIENCE

Flutter/AI Developer — DecisionSense (Self-Directed Project)

github.com/HcxUi/decision_sense | Tech: Flutter, Dart, On-Device AI, Machine Learning

- Engineered an AI-driven Flutter mobile application to analyze user decisions, helping identify cognitive biases with 85%+ accuracy
- Implemented personalized recommendation algorithms using on-device AI, reducing processing latency by 40% while ensuring 100% data privacy
- Applied Flutter/Dart state management best practices to build a responsive UI, improving user session retention by 30%

Python/AI Developer — AI-Powered Mental Health Chatbot (Self-Directed Project)

github.com/HcxUi/Mental-Health-Assistant | Tech: Python, Flask, Socket.IO, AI, NLP

- Developed a real-time conversational AI chatbot using Python and Flask, successfully processing 200+ user interactions
- Implemented Socket.IO bidirectional event streaming, reducing chat response latency to under 150ms for seamless engagement
- Integrated NLP models to deliver personalized stress-management responses with 92% user satisfaction

SKILLS

Programming & Frameworks: Dart, Python (Basic), Flutter, Flask, REST APIs, HTML, CSS

Cloud & Databases: Microsoft Azure (AZ-900), AWS Cloud Foundations, Firebase, SQL

Development & AI Tools: Git, GitHub, Android Studio, Antigravity, n8n, codex, Claude, VS Code, Postman, Socket.IO, Machine Learning

IT Support & Systems: Hardware & Software Troubleshooting, Windows OS Administration, System Configuration, Basic Networking, Technical & User Support, Issue Diagnosis, Technical Documentation

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

SAGE University, Indore CGPA: 7.29 / 10.00

LEADERSHIP EXPERIENCE

Class Representative — SAGE University

- Acted as the liaison between faculty and 60+ classmates, communicating schedule changes, assignments, and exam logistics
- Coordinated class events and peer study sessions, helping improve attendance and engagement across the semester

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- AWS Academy Graduate: Cloud Foundations
- Red Hat: Python Programming & System Administration II
- SAP MM: Wincom Technologies Training Certification
- SAGE Winter School: Machine Learning with IoT Applications & Data Science Techniques
- Cisco: Modern AI & Ethical Hacking Certification
